Summary

Innovative, creative, ambitious front end developer and a team player. I possess good skills in optimizing the code and making responsive websites. I work with modern cutting edge technologies, currently looking for a role in an established IT company with the opportunity to work on challenging and diverse projects. I'm motivated, punctual, open minded and I can adapt to any environments easily. I'm also a quick learner and always ready to put additional efforts to learn and grow.

Skills

- HTML, CSS, SCSS, JavaScript, React JS, Next JS, Context API, Redux, Redux Toolkit, Material UI, Tailwind CSS, Framer Motion, Firebase, Sanity, Figma, Git & GitHub
- Good understanding of responsive design pattern
- Heavily focused on the user experience aspect of web applications
